

Controls sales proceeds where fast handling is as essential as a good revenue control

Admission and Ticketing

The Q-Entry ticket printer is specifically designed for the leisure industry.

The thermal printer has a print speed of up to 70 tickets a minute, full cash reconciliation facilities and on-board ticket and text editing. It can issue tickets for admissions, cloakrooms, concerts and be used for promotional campaigns, producing drink vouchers and retention tickets.

Also prints tamperproof wristbands allowing secure readmission. This has proved invaluable since the smoking ban.

Admission and Ticketing

The Q-Entry ticket printer is specifically designed for the leisure industry.
